Fleming's Prime Steakhouse

750 N. Midvale Blvd.

Madison, WI

(608) 233-9550

Thursday, September 9, 2010

Gareth Parry, MD

Black & Tan Grille

(Located in the CopperLeaf Boutique Hotel)

300 West College Ave.

Appleton, WI

(920) 380-4745

Cutting Edge 2010: Research Updates in Multiple Sclerosis

Program Description

International congresses dedicated to multiple sclerosis (MS) bring together leading experts in MS research to share recent advances and valuable insights into the data and its clinical relevance. However, many physicians are unable to attend and actively participate in these important gatherings. This educational program is intended to deliver important highlights and compelling research data on the management of MS that has emerged thus far in 2010. These cutting-edge findings include promising data on orally administered disease-modifying therapies, as well as new symptomatic therapies. These and other research breakthroughs will be presented in the context of the current state of the art in MS treatment, allowing neurology practitioners to begin looking ahead toward implementing advances in MS management and improving the care of patients with MS.

Learning Objectives

The target audience for this program is neurologists and neurology nurses. At the completion of this program, the participant will be able to:

- Discuss the most recent and clinically relevant research on the pathogenesis and treatment of MS.
- Evaluate current therapeutic options and best practices for the management of MS.
- Identify radiological and surrogate disease markers that may be predictive of future disability in MS and useful in therapeutic decision making.
- Describe the mechanism of action, efficacy, and adverse events associated with newly emerging MS therapies.

Funding

This program has been made possible through an educational grant from TEVA Neuroscience.

Program Faculty

Gareth Parry, MD

Medical Director, MS Center

Medical Director, Clinical Neuroscience Research Unit

University of Minnesota Medical Center

Minneapolis, MN

Accreditation

Physicians

This activity has been planned and implemented in accordance with the essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of ProCE, Inc. and the National Association of Managed Care Physicians (NAMCP). The NAMCP is accredited by the ACCME to provide continuing medical education (CME) to physicians. The NAMCP designates this educational activity for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurses

CE is provided for this program through collaboration between ProCE, Inc. and Wild Iris Medical Education, Inc. Wild Iris Medical Education, WSNA CEARP Provider number PA-5/Feb/11, is an approved provider of continuing education by the Washington State Nurses Association, an accredited approver by the American Nurses' Credentialing Center's Commission on Accreditation. California Board of Registered Nursing Provider #12300. This activity provides 1.0 contact hour of nurse CE credit.

Disclosure

It is the policy of ProCE, Inc. to ensure balance, independence, objectivity and scientific rigor in all of its continuing education programs. Faculty must disclose to program participants any significant relationships with companies that manufacture or market products discussed during their presentation. Faculty conflict of interest disclosure will be announced at the beginning of the CME/CE activity. The planners of this activity have no real or perceived financial relationships to disclose.

Please note: The opinions expressed in this program should not be construed as those of the CME/CE provider. The information and views are those of the faculty through clinical practice and knowledge of the professional literature. Portions of this program may include the use of drugs for unlabeled indications. Use of drugs outside of labeling should be considered experimental and participants are advised to consult prescribing information and professional literature.
